EXPERIENCE

CME Strategy

Co-Founder

Remote

2026—Present

- Building go-to-market strategy from zero for educational consulting services company specializing in high school debate. Grew revenue from **\$0 to \$300k**, taking no outside funding, within **4 months** of launch.
- Lead 30 person team** across policy research, marketing, sales, operations; **owning** product delivery of core services, hiring, pricing strategy, and operations. Designed **two-sided marketplace** for student-coach matching which added **new revenue lines**.
- Built full-stack **enrollment, billing, & onboarding platform** (Next.js, TypeScript) on Stripe invoicing and payment webhooks, Airtable CRM, and DocuSeal e-contracts, including ACH verification handling.

Capital One

Business Analyst Intern

McLean, VA

Summer 2025

- Analyzed **billions of transaction-level records** across the Business Cards and Payments portfolio to diagnose spend-margin leakage, isolating the industries driving **>75%** of losses.
- Designed and pitched a dual-issuance test policy that leveraged **predictive modeling** based on customer demographics to place new accounts on margin-optimal card network at acquisition.
- Built reusable SQL pipelines and Python tooling that cut data-prep time by **50%**, enabling fast ad-hoc analysis of internal cardholder datasets.

Lynbrook High School

Lincoln-Douglas Debate Coach

Online

Nov 2024 — May 2026

- Served as primary research and argument coach, synthesizing intricate legal and political concepts, providing detailed student feedback, and assisting at tournaments.
- Led **most successful year** of Lincoln-Douglas debate team in school history. Students **won national championships**, other national-level tournaments, and multiple were **nationally ranked #1** over the course of the season.

Saramam Corporation

Growth

Campbell, CA

Summer 2024

- Doubled click-through rate** by owning online marketing strategy end to end for pre-seed AI startup, from campaign targeting to content optimization.
- Authored online content strategy, drawing on market research into emerging trends and technical advances.

PROJECTS

ebb | TypeScript, React, Next.js, Tailwind CSS, Rust, Tauri, iroh

- Shipping keyboard-first spreadsheet editor for flowing debate rounds; ran **3 design iterations** with a **15-user beta cohort**, prioritizing features from user interviews and observed usage.
- Built **serverless P2P co-editing** in Rust: custom CRDT (hybrid logical clocks, fractional indexing) over iroh QUIC
- Thousands** of users, adopted by **top-5 teams** and debate programs (Berkeley, Northwestern, Michigan, Dartmouth)

CardMirror (#2 contributor) | TypeScript, ProseMirror, Electron

- Designed **v1 plugin API**: typed editor surface, local HTTP bridge with session auth; **13 merged PRs**.
- Refactored LLM layer into **provider-neutral dispatch**, adding OpenRouter for open-weight and free models.

Debate Rankings | Python, Pandas, Statistical Modeling

- Built Bradley-Terry skill ratings (Fisher scoring, L2 prior, side-advantage term) for **1,300+ debaters** from **5,000+ round results**, weighting major tournaments.

Other Open Source

- nixpkgs (**26k***, Nix): packaged and maintained programs, merged to main.
- nvim-orgmode (**3.9k***, Lua): Prevented calendar buffer corruption using post-render locking via Neovim API.

EDUCATION

New York University

Bachelors of Arts - Computer Science and Philosophy

New York, NY

May 2026

Awards: Dean's List; National Debate Scholar (Summa Cum Laude); Best Presenter, 51st CAS UG Research Conference
